Part Commissioner's Office December 18, 1841

PROPOSALS, sealed and endorsed, will be re-ceived at this office until three o'clock P. M. of the 15th January, 1842, for manufacturing, furnish-ing, and delivering twenty-four hundred Mattresses for the use of the Navy, to be delivered as follows; 800 at the Navy Yard, Charlestown, Massachu-setts:

soo at the Navy Yard, Charlestown, Massachusetts;

8:00 at the Navy Yard, Brooklyn, New York; and 8:00 at the Navy Yard, Gosport, Virginia, on or before the 1st of April, 1842.

The said Mattresses must be six feet in length, twenty-eight inches wide, and made of the purest imported curled horse hair of the first quality. The ticking to be of American manufacture of the best quality—either of **Jmoskeag** Ticking*, or equal thereto; the gross weight of each of the said Mattresses to be eleven pounds, or nine pounds of hair without the tick. The hair must be taoiform in quality, and perfectly clean in its raw state when imported. Each Mattress is to have a sotton check cover of the best quality, with tape strings at one end, so as to be taken off and replaced at pleasure.

The said Mattresses to be subject on delivery to such in-spection as the Commissioners of the Navy may authorize or direct, and must be in all respects perfectly satisfactory to the commanders or commanding officers of said navy yards, respectively.

Bonds, with two approved sureties in one-third the amount of the respective contracts entered into, will be required, and ten per centum, in addition, will be withheld from the amount of each payment to be made, as collateral security for the due and faithful performance thereof, which will not be paid until the contracts be complied with. After deducting ten per centum, payment will be made by the United States within thirty days after said Mattresses are inspected and received, and bills for the same presented to the respective Navy Agents at Boston, New York, and Norfolk, approved by the commanders or commanding officers of said yards, respectively, according to the terms of the contracts.

All the said Mattresses must conform to, and be in

MEDICAL INC. FIGE. -- To the Sick and afficted with Disease. — The Subscriber prepares medicines that will cure the following diseases: Cancer, without cutting it; Consumption, Deafness, and all diseases of the Ears; Piles and Fistula; Scrofula, commonly called the King's Evil; Stone and Gravel; Asthma; White Swellings; Dyspepsia; Rheumatisms; Gout; Bronchetis; Inflammations of the Liver and Lungs; Inflammatory Sore Throut; Inflammations of the Eyes; Fevers and Agues; Ulcers of the Legs, or any Eruptions of the Skin, and Diseases of Women.

Dr. PURCELL has, by indefatigable labor, for years, over fires, glasses, and retorts, with great expense, made the greatest discovery for the preservation of the lives of men, from the awful and extermit nating diseases of the Plague and Yellow Fever, that was ever made by any man or nation to the p esent day. Lavoisier was the greatest chemist indeed. Sir Humphrey Davey was the greatest chemist that England has produced. These great men, and all the chemists that ever came before them, have been looking and laboring for the medicine that Providence was plessed to reveal to me for the preservation of the lives of his creatures. This invaluable medicine is a preventive and a specific in Plague, Yellow Fever, Small Pox, and all contagious diseases in nature.

A man by taking a table spoon full of the medicine in the morning, fasting, may go into an hospital where people are dying with the Plague or Yellow Fever.—He may take the sick man by the hand, and turn him in his bed, and shall not take the disease—and if the strength of the patient is not exhausted the medicine will cure thim. This is the first public notice I have given of the discovery of this medicine, and I do not intend to offer it for sale at present, as every one knows the weather at this season of the year puts an end to the awful effects of the Yellow Fever.

My object at present is to inform the public, that in case the disease should return the next year, that the people may be informed that there is a medici

abid animal—of the bite of the most poisonous snakes, f applied in time.

Dr. P. can destroy any of the fatal poisons, and their deleterious effects, that can be obtained from Animal, Vegetables or Minerals. I can also deprive all the Corrosive Acids of their poisonous and delete-

all the Corrosive Acids of their poisonous and deleterious effects in an instant.

TNO IMPOSTER CAN COUNTERFEIT THIS MEDICINE—I gave this medicine to Dr. Hare, Professor of Chemistry in the University of Philadelphia—a gentleman I consider a first rate Chemist, to see if he could analyze it and ascertain its component parts. He tried all the tests that could be tried, and could not ascertain its component parts.—Nor is it in the power of any man to ascertain the component parts of this medicine except the proprietor.

The above Medicines are to be had by application to Dr. PURCELL, Jefferson street, Georgetown, D. C.

Washington City, Dec. 4, 1841.

Gentlemen: The substantial benefits I received during a cold and tedious journey here, from your invaluable Horehound Candy, enabled me to discharge my duties in Congress far beyond my expectations on my departure. My voice and lungs have perfectly recovered their tone, and my breathing is free and sound.—

I have given what I left to several of our members, who wish me to the control of the who wish me to write to you for a small case, whic you will forward early to my address.
